There are many kinds of advertising but the best, experts who have studied the subject of advertising in all its phase place newspaper advertising as by far the leader in all advertising.

Some people talk about "direct" advertising meaning circulars and such like, the things which keep waste paper basket factories buy. The hindred advertising purper basket factories buy. The hindred advertising into the home in the family memapher which goes into the home in the family memapher waste paper basket, but you do see circulars chucked directly into the waste paper basket, but you do see circulars chucked directly into the waste paper basket without much 'more' than' a passing diance, not all, of course, but a good percentage in this buy day and dae.

Like some other things circularizing has been overdine and so called "direct" advertisers are flocking back to the daily newspaper which has the "open sessme" and a hearty welcome to the best homes of the land.

# A Full Hour of Sunlight's Healthful Vitamin in every Muffet you eat

Muffets.. new whole wheat biscuit alone brings you four important vitamins - one the identical health-promoting vitamin of sunshine

WITHOUT the new exclusive proces called irradiation, Muffers would still bring you healthful nourishment such as few other foods can give. For Muffers are crisp, well-browned biscuits made of the entire wheat grain. Nothing is removed. Read the complete health facts printed here.

#### Health value increased

But now by a patented scientific method, the natural food values of Muffets are amazingly natural food values of Muffers are amazingly increased. By means of certain powerful rays similar to those in sunlight, we store up in every Muffet as much of the vital vitamin effect of sunlight as is secured from 20 minutes' exposure to noonday summer sunshine, or to 3 hours of winter sun.\*

Or to 3 nours of winter sun.

Crisp, well-browned whole wheat biscuit with the delicious, toasted flavor you like so well-Muffets alone, with fruit juices, or

with milk or cream... are enticing to the taste and nourishing as well.

Science knows how dependent on sunlight we all are for health. Children need the "sun min to have strong bones... strong teeth. Men and women likewise need it to restore wast-age of teeth and bone. Now these benefits of summer sunshine

are yours the whole year 'round . . . at breakfast or at any other meal. Not a day but you may get in this delicious whole wheat biscuit every one of four vitamins your body needs.

You will enjoy the crispness . . the nut-like flavor of Muffets. Ask your grocer for a box. Economical

# HELPING TO BUILD A NATION

No. 2: — Grain Elevators: The Canadian Terminal System Limited, will have a fed Elevator capacity of Ten Million Bushals when the Kingston Unit is complete

THE completion of the New Welland Canal has opened a new era in the transportation and storage of grain between the Great Lakes and the Atlantic school. The larger loats that formerly transferred their cargo at Pt. Collorne or Buffalo may now proceed as far as Kingston, thereby effecting a considerable saving of time and trans-portation cost.

The need for terminal facilities at Kir

The Kingston unit will be in a sound strategic position to handle the enormous trans-shipments which will be made at this point. In addition it will provide much needed storage accommodation at close preximity to Montreal relieving the periodic tie-ups which occur there.

# In Passing Other Cars...Don't "Cut In"

One of the greatest dangers on the highway is the driver who insists on passing other cars when there is no space for him in the traffic line ahead. If he should meet a car coming in the opposite direction, a crash follows—with injury to persons or

It's a good rule to keep in line, unless you have a clear view of the road ahead, and there is a place in the traffic line which you can reach before you meet on-coming traffic.

Don't be a nuisance by "cutting in". It is discourteous to other drivers and creates needless danger. You may have a crash ... and even if you don't, you are liable to a fine under the Highway Traffic Act.

ONLY pure cane sugar, refined in Canadian refineries and of the finest grade, such as you use on your table, is used to sweeten Coca-Cola.

Pure cane sugar is not only the best sweetener, but is a great energy pro-ducer and is particularly good for children and grown-ups alike.

Wholesome because there's nothing artificial or synthetic in it—Coca-Cola is made of pure materials and natural color, in spotles, saminary plants where all equipment is sterilized daily. That is why you can have every confidence in its purity.

KNEW THE OIL PEDLER

YEARS OF

The house wives of the eighties knew the oil-pedler. He used to call around every day or so selling kerosene for oil lamps.

Imperial Oil was a new company in those days, with one small refinery at Sarnia, Onatio. Its chief effort was to make a good, pure, safe kerosene. The oil-pedier was an important part of the distribution system.

He is only a quaint memory today. In his place Imperial has now a vast service system reaching into every corner of Canada—on both sesboards—in every town—across the Prairies—through the mining camps—in Arctic caches for northern filers. The supply comes from Imperial's aix great reduceries by miles of Imperial tank care—by in its lake host—by hundreds of its trucks—by dog team trails. To bring the finest crucks—by dog team trails. To bring the finest cruck and per to learn to its refueries. Imperial has derricks in Peru—pipelines through Colombian swamps—its big tank ships on the Atlantic and Pacific.

Imperial has grown in this way by constant enterprise and effort to achieve the perfection of gasoline and lubrication on which modern transportation and industry depend. It has grown because people have learned to buy Imperial Oil products with confidence.

Marvelube is Imperial's finest motor

Imperial Premier and Imperial Ethyl are its best gasolines.

Which means that nothing finer can be put in your car.

Orened, including subsidiaries, by 79,000 shareholders in Ganada, Great Britain and the United States. The Company's securities are listed and traded in on the Montreal and New York Stock Exchanges.

Lygn balance between pulpwood reces and mill capacity is a fixed policy of International Paper and Power Company. New capacity is installed only when backed by timber resources sufficient to supply the mill in perpetuity.

ational's forest conservation policy, equally important, is to utilize every means at the Company's command for greater efficiency in logging operations, including sponsible for the development and applieation of scientific measures insuring the maximum future crop.

In addition to co-operating with the various Canadian forest fire protective associations, International maintains its own fire protective system, perhaps the most extensive operation of its kind in effect by any private agency. Average expenditures of the Company in protecting its forest reserves are approximately \$400,000 a year.

These policies, while involving large capital expenditure, interest and maintenance charges, insure the permanence of the Company's operations, guarantee the future requirements of its customers, protect the interests of its security holders, and safeguard the future of the communities relying upon the Company for regular employment.

What International Paper and Power Company is, who owns it, what are its policies and where and of what nature its undertakings, is being told in a series of advertisements, of which this is the fifth.

We Sell Only GOODYEARS

IT is true that all tires are not alike. And it's obvious that all tires are not the same value, That's why we sell Goodycars only.

We've watched Goodyear Tires in use for a good many years. We're satisfied that they give the longest mileage. We're sold on Supertwist and the All-Weather Tread. And Goodyear gives us a complete line of tires to meet all needs.

It's true we don't make quite as much money per tire. But we sell a lot more tires.

We have your size and type.

**Uzone** the ideal water purifier

WATER PURIFICATION is the starting point of all sanitation. In the past two thousand years nations and communities have spent fabulous sums in their efforts to insure pure water for their

peoples.

Almost everybody is familiar with the healthful properties of ezone in sea breezes and in the pure, clean air of the pine forests. Ozone, after centuries of research, has finally been recognized by eichists as the ideal and complete water purify-

ing agent. Hot grant of the measures taken by health inhibition to insure pure drinking water, this surer, used in making Cost-Gold (strupt), is subjected to a final and absolute purification by passing it through an coron generator, which, by means of a powerful electric discharge, takes the oxygen from purified air and converts it into coose. The water is then subjected to the action of this "consisted air. Such treatment hances absoluing

# BEAT ARE HEARD Boy Injured With Fork Following Load of Peas

Trying to scare, with a fork, some children away from a load of peas which a farmer was drawing to the Canning factory on Albion St., Garfield Roy Sandford, 56 Murney Street, was struck by the fork and sustained a bruise on the forehead. He was taken to a local physician, the wound dressed, and then removed to his home.

and then removed to his home.

The farmer was not trying to atrike any of the children, only trying to scare, them away from his load and it is understood Sandford was hidden from view and when the fork went down too far, the investigated the incident but did not hold the farmer nor lay any charge.

Some children are in the habit of following loads of peas to the factory and pulling bundles of peas off and otherwise making, themselves a nuistense of the control of th

# Judge the Government On Its Record And You'll Vote Liberal

NEVER has a Government gone before the electors of Canada with a herrer. cleaner or a more progressive record than the present Liberal Government.

Premier King has rightly pointed out that the present Government, during its returner King has rightly pointed out that the present Government, during its tenure of office from December, 1921, has brought the country out of a period of the deepest depression to years of prosperity unequalled in the Dominion's history. If for no other reason than that alone, the present Government deserves to be returned to power. But you'll find other reasons aplenty in the brief resume that follows of the Government's record of achievement.

#### Reduction of Debt

Every year since 1924 the Government has paid off annually a substantial portion of the National Obet which had reached the staggering odd of \$2,427,000,000 when the MacKenzie King Government assumed office. At the rate the Liberal Government has been paying off the deby, the toos! Public Debt of Canada would be wiped

Surpluses over Expenditures Surpluses OVEY EXPENDITURES

The Liberal Government has been a very businessiike one. Expenditures have been kept down to a minimum. The sum total of annual surpluses under the present Liberal regime total \$273,000,000. Surpluses instead of deficits have been the Liberal record.

#### Reduction in Taxes

Reduction in Taxes
Since 1924 the present Government has not only
reduced the National Debt but has reduced the
taxtion burdens of the people.
The Dominion income tax has been reduced on
such an extent that orday the masses of the people
pay very little income tax to the Dominion
now paying 80 per coal. lest than he did fire
years ago. Great numbers pay nothing at all.

""See Salar Tax shirth was 60% in 1924 has been years ago. Great numbers pay oothing at all.

The Sales. Tax which was 6% in 1923 has been reduced year by year until it now amounts to but 1% and that is likely to disappear near year if the King Government is returned to power.

Taxes on cheques below \$10, taxes on crecipes, on railway and stanship tickees, on telegrams and cablegrams, on insurance premiums, have all been aboilable.

Penny Postage has been re-established from Canada to all parts of the British Empire. It is estimated that the present Government has reduced the tax burden on the people of Canada to such an extent that we are paying \$118,000,000 less taxes to the Dominion Government this year than in 1926. A truly remarkable achievement.

#### Government Railways Put On Their Feet

Their Feet.

The present Libral administration took over a group of Makrupt railways, consolidated them into one system and port them under the control of Six Henry Thornton, with the result that Canada possesses, under government ownership, world, with former operating deficits changed into operating surplues.

Besides establishing the Government Railways on a sound foundation, the Libral Government has a sound foundation, the Libral Government and the control of the Canada of Canada.

#### Completed the Welland Canal

Completed the Welland Canal Under the preson Liberal Government the great new Welland Canal has been completed. This will enable the very largest steamers and freighters to travel from Lake Oracsio to the Cupper Lakes. With the completion of the Sc. Upper Lakes. With the completion of the Sc. Leventus Government stands squarrly in favor, coral liners will libe able to sacrod the Sc. Lev-rence, thence through the Welland Canal to all ports on the Great Lakes.

#### Generous Treatment of War Votorans

War Veterans

Colonel Lafetch, Dominion President of the
Candian Legion, say, Conada now leads the
British Empire in treatment of resured men.
The War Veterans Allowance Art, the revised
mathinery for dealing with pension claims, the
broad and generous methods of giving veterans
the benefit of any doubt as to the cause of disability, exemplify the Liberal policy of doing
justice to and helping returned men.

#### Check Migration to the States

The migration from Canada to the States which was proceeding at such an alarming rate when the Liberal Government took office has been checked and a return flow of Canadians back to Canada has been established.

#### A HORSE OF THE RIGHT COLOR

Inroads of the motorcar have wrought a great change in the number of horses which ply the roads in the country and so must have usually affect the number of white horses.

But on Saturday it did not seem to have

any such effect upon the number of white steeds for the marshals of the parade at Hal-loway had enough of the white to lend the proper color to the orange and other colors so much in prominence at the Twelfth celebra-

tion.

Nature seems to be providing enough of the whites and greys for the occasion or there must have been some scouring of the country to raise enough white horses for the procession.

sion.

White chargers for this occasion have so leftly wrought htemselves into the imagination of the people that they appear the only "horse of a color" for that day.

BOY OR GIRL

By Edgar A. Guest 'Oh, what a curious world 'twould be without

divine control
And we could order children as we order meat
and coal.
Then folks who wanted little boys their whims
could gratify
And those who wanted little girls, a boy would
never buy.

But some might order one of each to learn which one is best, And if so grave a problem could be solved by such a test. And some might build a family exclusively of

boys

While richer folks might order twins to multiply their joys.

Oh, if the choice were last to us, who knows which way twould go?

Som miles and ask for boys, some others are to the control of the control

I think it better as it is, ours the choice to make,
There's none of us could be quite sure which
one we ought to take.
So whether it be boy or girl, in this the ques-

tion ends,
We should be grateful to the Lord whichever
one He sends.

MOSQUITOES have overstayed their well-come and are evidently working overtime for the porth, screen people. Sitting out-side these nights without adequate screen pretection is just torture. #### CARNIVAL RARGAINS

Midsummer brings the long lazy days of nacation, and the great outdoors calls with its many attractions of motoring, boating, camping and fishing. The thoughts of midsummer like the thoughts of youth are long, long thoughts and mostly of where will we spend our pacation? Also what will we wear? for vacation calls for spruce attire. It is also desirable to make a little money go a long way so that there will be more money left for gasoline and general vacation

HERE'S THE ANSWER.

Vacation time brings, generally, a lull in the business world and the stores find that shoppers are not so many or so keen, consequently this is the season when merchants commune with themselves and their fellows to see how business can

be penned up and how the shelves can be cleared so that the percentage of carriedover goods from one season to another will be as small as possible. Hence, progressive merchants of Relleville have combined to put on a Bargain Sale this week. Friday and Saturday, which will give business a needed fillip, delight the shoppers and replace goods with money which is very necessary in the modern method of merchandising.

Don't carry anything over is the slogan, when stocks fail to move fast enough give them the Bargain Tonic.

Modern Merchandising means Methods which keep stocks moving all the time

Friday and Saturday of this week the merchants whose announcements appear herewith are giving the people of Belleville and District a real

Carnival of Bargains, an opportunity to save money on quality goods.

In this Big Bargain Carnival will be found all kinds of goods, wearing apparel including foot-wear, jewelry, hardware, fishing tackle and outfits, bicycles and joycycles, paint, and a thousand and one things needed in every household.

Thrift means buying when prices are low. Read the advertisements in this issue which sive a condensed idea of the bargains on display in the various stores represented in these col-

Watch the windows and buzz through the strose on shopping tours, the bargains will surprise and delight.

### The Low Cost of Health

Some people spend a lot of money for Health and don't get it. No matter how much you spend for it, health will not come with wrong food habits. A bowl of Shredded Wheat and milk for breakfast every morning will do a long way toward repairing the damage done by foolish food habits. A simple, nourishing food that contains every element the body needs-and so easily digested.

# Yoteto Buy More from Britain Less from the United States

That's the True Road to Greater Canadian Prosperity

THE new higher earli policy of the United States
Thas abown Britain and European countries, as
well as Canada, that the United States does not
want to buy from other countries, but only to sell
to them. It has belged to create an overwhelming

# The Tire of Today for the Car of Today

When announced in the summer of 1929, Dominion Royals took the automobile world by storm. They were new. New in principle, construction, tread. Today, they are standard equipment on many of Canada's finest cars.

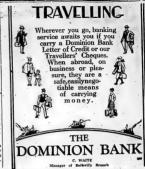

With massive carcass, deep-cut tread blocks, sidewalls buttressed against rut and curb wear, Dominion Royals are obviously built for mileage and the strains of modern motoring: Drivers who put them on last season need only have them inspected by a Dominion Tire Dealer and they're set for .1930

Dominion Royals, as well as Royal Masters, Dominion Endurance for light cars and Royal Heavy Service Tires are sold by Dominion Tire Dealers, conveniently located and equipped to give you added mileage through tire service of the highest quality.

### WHEN JANET IS AWAY

When little Janet goes away
The house is very still,
Then I may read my book all day
And do just as I will,
And no one shouts upstairs at me
Excitedly, to run
The very marvelous thing to see
Her little hands have done.

Uninterrupted at my task
I sit the morning through
None comes into my room to ask
A favor I could do,
I'm not disturbed by shrieks of pain
or happy shouts of glee,
I am a care-free man again
With none to trouble me.

I think at times when she is here
Beseeching me to play
And tugging boldly at my ear
I wish she'd go away,
Just now I have his task to do
And have no time to spare
I wish the house were, quiet too,
Such noise I cannot bear.

But, oh, when Janet goes away
The stillness troubles morel
I miss her laughter through the day,
Her tap upon my door.
The book I thought I'd like to read,
The silence never breaks
I find to be content I need
The noise that Janet makes.

### The Reckless, Careless Driver Is Penalized by -

The Safety Responsibility Law' of Ontario

Which becomes effective Sept. 1st. Every motorist, even he who drives with the greare, should know the details of this new law.

It encourages safe, sane driving and provides that the Driver who offends MUST PAY.

The motorist who drives recklessly or causing damage, is not insured and unable to pay, will lose his driving license—and cannot have it reinstated unless he shows proof of Financial Responsibility. The suspension of an owner's permit applies to all cars owned by the offender.

Observe the Rules of the Road Drive with

CARE, COURTESY and COMMONSENSE

The new law provides suspension of license for any one of several offences, all concerned with safety on the road the road.

The penalties of this law cover Ontario motorists in other provinces and in the U. S. A. and visiting motorists as well.

## The Real Issues-July 28

both sides admit Canada's welfare is at stake. The main domestic issues are unemployment-home markets - taxation - Provincial and Dominion co-ordination - and means for greater interprovincial exchange of people and products. The main international issues are British Empire trade negotiations - meeting foreign tariff handicaps and Canada's status on the seas and seaways. Only the radio can give both sides of the arguments fearlessly and fully. Radio knows no favoritism - Radio alone enables you to make your decision without prejudice. Have your dealer check your tubes today if your set is not working like new. Replacing a worn tube will repay you a hundredfold. THE MUSIC OF THE WORLD Whenever I go out for walks
The music I can near
Of swinging corn, and birds, and books,
Is like an orchestra.

And when I go to bed at night The low voice of the sea. Humming along the pebbled beach Comes through the dark to me.

The wind plays tunes among the leaves,
And on the windowpane
I hear, like little fairy drums,
The footsteps of the rain.

## You can re-roof during harvest-time

Just a tiny leak in your barn roof will let the rain drip on to the grain stored beneath. A few hours while a chemical reaction takes place and then-spontaneous combustion, which spells destruction.

Put Brantford Arro-Lock Slates on NOW-right over the old wood shingles, without uncovering the barn.

.The Arro-Lock interlocking feature fastens them securely together so that rain, wind, hail, frost and snow are powerless against them. They cost less to buy, less to lay, and nothing for upkeep through the years.

NEW COLOURS: In addition to the well-known Red, Green and Blue-Black Arro-Lock Slates, we are now making them in colour combinations known as "Dorset" and "Cornwall" - shaded tones of marked beauty at no extra cost. Ask the Brantford dealer to show you.

T is true that all tires are not alike. And it's obvious that all tires are not the same value. That's why we sell Goodyears only.

We've watched Goodyear Tires in use for a good many years. We're satisfied that they give the longest mileage. We're sold on Supertwist and the All-Weather Tread. And Goodyear gives us a complete line of tires to meet all needs.

It's true we don't make quite as much money per sire. But we sell a lot more tires.

We have your size and type.

# Keep in Line on Curves

Keep in single file on curves. You can't see the road ahead, so do not try to pass. Another car on its own right of way may meet you . . . with a crash.

On steep grades too, keep in line. There's danger always of another car suddenly coming over the top towards you.

If traffic is not moving fast enough for you, wait for an open stretch before you move ahead.

### The Conservative Legacy of Debt and Depression

WHEN the Mackensie King Government came into power Canada was suffering from a widespread industrial depression. The National Debt was increasing with alarming rapidity. Large numbers of Canadians were emigrating to the United States. The Canadian dollar was at a discount. The Government-owned railways were hopelessly disorganized and operating at a heavy loss to the taxpayers of hopelessly disorganized and operating at a heavy loss to the taxpayers of the Dominion.

# The Liberal Record of Faithful Stewardship

- Under Liberal Administration deficits were changed into surpluses. Th National Debt has been reduced by \$273,000,000. The Canadian dolla was brought back to par, Our credit was restored at home and abroad.
- 2. Taxes have been steadily and progressively reduced.
- 3. From 1922 to 1929 the export trade of Canada has almost doubfied. Canada sports more manufactured goods per capita than any country in the world except fers Bériain. With a population of 10,000,000 Canada stands fifth among the trading nations of the world.
- Under Sir Henry Thornton, whose sérvices were secured by the Liberal Administration, the Canadian National Railways have been converted from a liability to one of the greatest assets of the Canadian people.
- The exodus has been checked. Canadians are returning in increasing numbers from the United States.
- Old Age Pensions have been established. Already 43,000 of our aged citizens are receiving the benefits of this Liberal measure.
- Canada's War Veterans have been treated with justice and liberality. Our war pensions legislation is the most advanced in the world.
- The Western Provinces have received back their natural resources. The grievances of the Maritime Provinces have been removed. In eight years of office the Government has paid to the provinces the vast sum of \$136,330,618, much the most generous treatment ever accorded.
- The eight-hour day has been enacted for government employees and work-men on Government contracts. There has been less industrial strife than at any period of our history.
- Under the Tariff Advisory Board the tariff structure is being developed on a sound and scientific foundation.
- The Welland Canal, the Hudson Bay Railway and other great public works have been completed out of current revenues and without borrowing a dollar.
- Legations have been created abroad which have greatly advanced the interests and prestige of Canada. Intra-empire relations were never more satisfactory than they are to-day.
- Until the present world economic crisis came upon us, Canada was enjoying the greatest prosperity in its history. 14. In a time of world-wide unemployment and distress, Canada shows the least unemployment in the world.

BEST OF ALL

I brought me home some vases
From the auction yesterday,
A pair of tall, blue vases
Priceless luster, so they say.

I brought two singing seashells A funny old teapot, A precious little china chair, To stand on my whatnot,

I bought a lovely lady, in an oval frame of gold, And a brown-cracked, milky pitcher That is old, old, old!

They liked my lovely lady,
My vases slim and blue.
They liked the little china chair,
The shells of pearly bue;

But when they saw the pitcher, Heavy, cracked, and brown, They laughed in gay derision, They laughed me up and down.

Why did I want the worthless thing?
They asked. I couldn't tell:
But of all the treasures I brought home
There's none I love so well

As that queerly fashioned pitcher,
With the deep chip in its spout,
And the colorless, raised corn-cars,
Where the cracks run in and-out.

You may have my luster vases
If you want them very much,
But my little old cracked pitcher
No bargaining can touch!

# McLaughlin-Buick

EVERYONE interested in motoring will be drawn by the mouncement of McLaughlin-Buick

Confident in the soundness and dependability of each forward step that McLaughlin-Buick takes, thousands will investigate the greatest news in motordom.

The Six as McLaughlin-Buick built it, represented as thousands of Canadians know, and even boast the highest degree of six cylinder performance.

This unquestioned leadership is clearly demonstrated by the fact that more than four out of five—88 per cent—of the 'great army of McLaughlin-Buick owners buy McLaughlin-Buicks again and again.

Now we go to the Eight in a natural, routine step towards an even higher quality and measure of performance. The most trying conditions of modern motoring and the most exacting demands of motorists are met and satisfied by the Eight as McLaughlin-Buick builds it. Without'departing in any way from the basic McLaughlin-Buick principles of design, the General Motors resources of men and materials, through progression, have developed this thoroughly tested Light.

Now prepare yourself for something definitely better, performance that opens 2 new vista of motoring delight.

Speed like a radio wave; a flexibility as smooth as an eagle's flight; a quietness that could result only from the combination of McLaughlin-Butck's basically sound design, together with the latest developments in scientific progress.

The new McLaughlin-Buick Eight will be on display in a few days. The ever-increasing number who look to McLaughlin-Buick for conservative and constant advancement, together with those increased in automotive progress, will find pleasure and profit in inspecting this marvelous motor car.

FOUR NEW SERIES OF STRAIGHT EIGHTS VALVE-IN-HEAD, OF COURSE. TRANSMISSION: NEW SYNCRO-MESH

NOW McLaughlin-Buick announces four straight-eights, note-worthy developments of the basic McLaughlin-Buick Valve-in-Head design and construction.

Roll along at usual speeds—accelerate to 60 miles per hour—surely, amouthly and quietly, like the swell of the see. Then to still higher speed, if you need, and again feet that froward usage! Throughout the entire speed range you will experience no increased noise, liarsh meas or sense of effort. The mighty power of this engine expresses itself merely as a quiet murrant. Now you may experience an unusual performance with quietness and committee.

### New Syncro-Mesh Transmission

The new costly and harvine Sprice-Medi Transmission, found on the longer wheelbase series makes gear changing so casy and so noiseleast that it actually gives a new third to driving. From first to becond, to third at the first of a finger—and then back to second again, should driving conditions call for it.

### Oil Temperature Regulator

Vital needs of pefect engine operation and long life are satisfied by the Oil Temperature Regulator. Water in the cooling system is, utilized to mannian engine oils a correct temperatures. When starting in cold weather, the oil is brought promptly to the most efficient operating temperature. It is like-size cooled on her days and during long periods of high speed operation. There are no moving parts to

wear or require attention in this new, exclusive McLaughlin-Buick feature, which is peculiarly adapted to Canadian weather conditions-

### Insulated Bodies by Fisher

Bodies by Fisher are now insulated, like a fine home, against heat, cold and noise. The body is designed as a unit with the chasts, which has been doubly strengthened without increase in weight. The resulting roadability and train-like sureness of tread allow high speeds with greater comfort and a superme sense of safetow

## THE BOY BEHIND THE BISCUIT

Ever see a boy behind a Shredded Wheat Biscuit? You will have to look quick before the biscuit disappearsbut wait and you will see him take another biscuit-and more milk. The more he chews the crisp shreds of baked whole wheat, the more he likes it-and that's the reason he is a real boy, full of bounding energy and radiant health. Just as good for grown-ups. Delicious with prunes, baked apples, sliced bananas or any fruit.
